Incubation Center in Osaka Nanko, Japan - Support for companies getting started in the digital media industry

iMedio
Incubator for Multimedia Industry Osaka
iMedio Software Industry Plaza

What is iMedio?

iMedio is a shared-use type of incubator facility in Osaka intended to promote and cultivate the digital media industry whether that be through IT, images, games, animation, web development or smartphone applications.

As a means of business support, iMedio assists companies in their startup and development by providing them with office space. In addition, as a means of production environment support, there are production studios on site and audio equipment for rent. Furthermore, as a means of cultivating human resources, iMedio holds various types of technical seminars on the production of software applications, website development, SNS, images and so forth, as well as seminars on business startups.

- Space for business meetings (6 tables)
- Shower room (Available 24 hours)

Support for cultivating human resources

Seminars on IT and digital media

The speakers are professionals actively playing a part at the forefront of IT and digital media!
The content of these lectures, which are directly applicable to jobs, can support your efforts to improve skills.

Seminars are certain to be very rewarding and informative. They address subjects such as internet trends and state-of-the-art digital technologies and tools. There are also talk sessions where key men in the digital media industry are invited as guests, and management assistance seminars where specialists and business managers are invited to talk about their business ventures and experiences.

Production environment support

Audio and visual production equipment available on demand

An array of facilities and equipment are available at low cost. Suited for the production of broadcast content.

Recording studio

The recording studio features a top-of-the-line production environment with soundproof recording booths that are optimal for vocal and narration recordings, and control rooms equipped with a high quality sound monitoring environment. Anybody can utilize the studio to record audio for e-learning materials, corporate advertising videos and so on. Expert sound engineers can also provide assistance upon request.

Video systems

Mobile filming and recording system

With these video systems, tenants can record programs in theaters, gymnastic halls, and outdoor facilities. A single system consists of a camera, switcher, audio mixer, and VTR. Additionally, our support staff will accompany you to the set, and provide you with advice on the installation and operation of the equipment. The systems are designed so that they can be set up in a short amount of time on the spot.

7 kinds of support offered by iMedio

Provision of inexpensive comfortable office space

Monthly fee: 28,900 JPY and up (Common services, electricity and air-conditioner charges included)
